

Affordable "Green" Roofing

In 8 Attractive Colors

ONDURA®

The New Wave In Roofing

Affordable "Green" Roofing System

Ondura Corrugated Asphalt Roofing is the premium choice for today's homeowners who want to use eco-friendly building materials without sacrificing style or quality – and save money!

Exceeds EPA "Green" Standards

- Designated an **Environmentally Preferable Product** by the EPA
- Made from 50% recycled materials
- Attractive, lightweight and durable
- No tear-off of old roofing – saves money and prevents landfill waste
- Sustainable roofing – Lifetime Limited Warranty
- High-wind resistance – tiles up to 200 MPH and sheets up to 125 MPH
- Rust-free and corrosion-free
- Helps noise reduction

Ondura is an environmentally preferable, visually appealing product manufactured in the USA. It is comprised of 50% recycled content, 95% of which is post-consumer materials diverted from landfills. This unique formulation reduces approximately 1 ton of landfill cellulose waste each time the product is used on the average residential project.

Product Selection

- Available in 8 beautiful colors
- 48" x 79" sheets (18 lbs.)
- 48" x 19.75" tiles (4.5 lbs.)
- Full-line of accessories including: ridge caps, color-matched nails, closure strips and pipe flashings

Versatility and Installation

Ondura can be used in a variety of new roofing and re-roofing applications and is available in a style and color that fits your architectural needs and personal taste. It easily installs directly over solid decking and felt, over rafters and purlin (structures without interior ceilings) and most existing roofing. No special tools are required for installation.

Manufactured in the USA.

Ondura roofing exceeds all EPA standards for recycled content, and is a certified Environmentally Preferable Product by the EPA.

No sharp edges

Environmental Facts

- Ondura's manufacturing process recycles 40 tons of paper each day, 11,000 tons each year.
- One ton of recycled paper saves approximately 17 trees, 24,000 gallons of water and 2.5 barrels of oil.
- One ton of recycled paper saves 3.2 cubic yards of landfill space.

Tiles have resisted 200 mph winds
